

# **West Bengal Board of Secondary Education Press Note**

The 3 pictures circulating from 1.40 pm on social media are three pages of the 16 page English question paper of Madhyamik 23 today. The matter is actually a planned "sabotage" and not "leak". Had it been a leak, then all 16 pages would start circulating before the start of the examination. We have already requested the Administration to investigate the source of this sabotage. The exam started from 12 noon, question distributed at 11.45 am, and when the pictures were circulated, the examinees and all other concerned were inside the examination hall. Therefore, it did not have any effect on the examination. Those who give cognizance to such acts actually promote such meaningless acts of sabotage.
